Kashmiri

PROFILE

I am a web developer with hands-on experience in HTML, CSS, JavaScript, and Node.js. Building frontend features and connecting them to backend APIs. With over 6 years of experience in end-user and system support. I bring good problem-solving and communication skills to every project. I contribute actively to agile projects and I am eager to learn and work with real world AI technology projects.

I relocated to Denmark with my husband and we are planning to stay here long-term. I am looking to continue my career in IT and web development, contributing my skills to organizations that value collaboration, continuous learning, and seamless digital experiences.

WORK EXPERIENCE

Technical Support &Educator **2021-2023**
